

Sprint End Progress Check: GotoGro-MRM

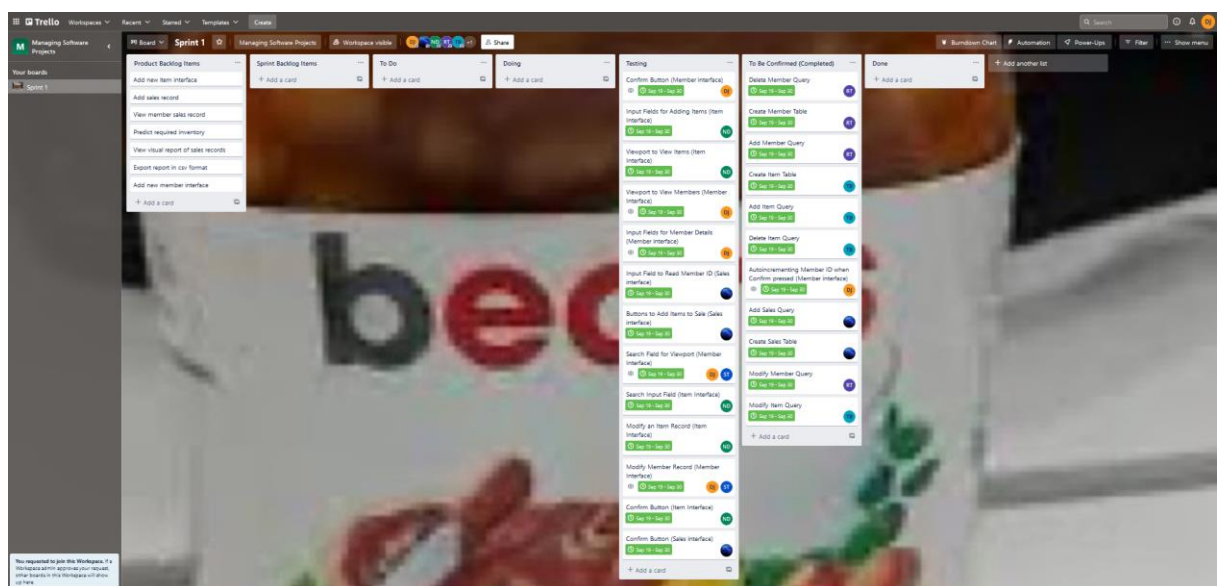

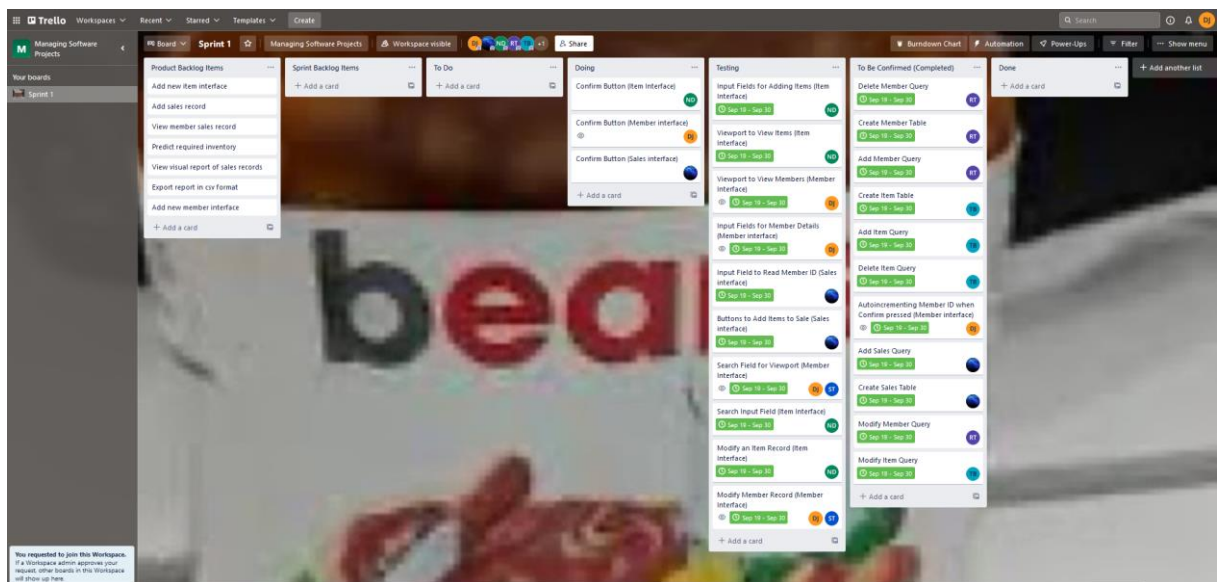

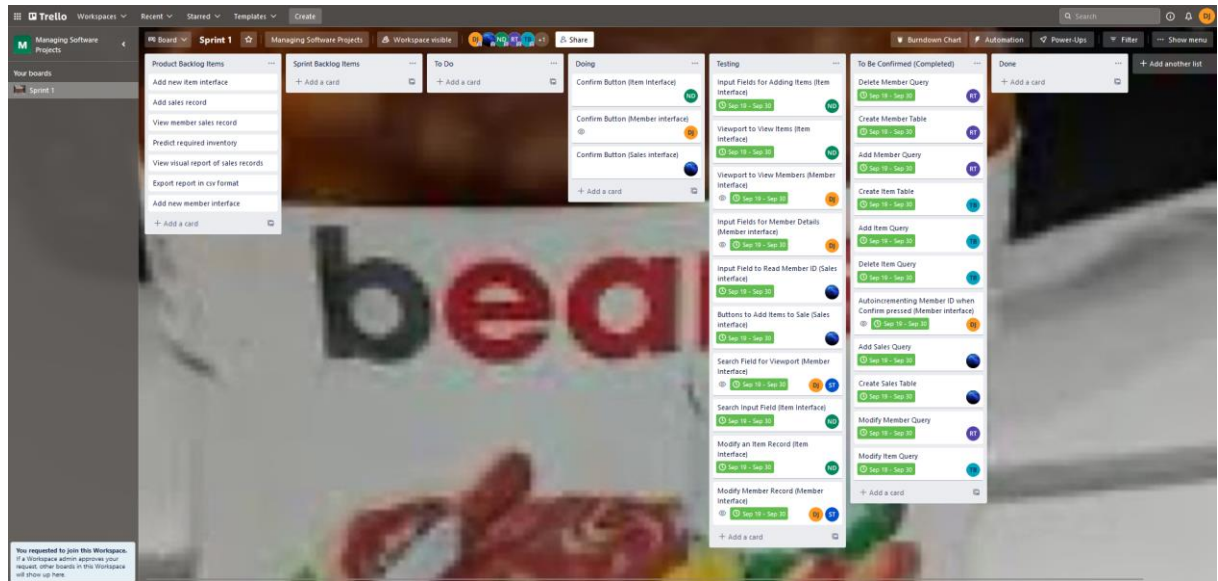

Team Details

Team Name:	MSP 14
Tutorial:	Tue 2:30 ATC325
Tutor:	Dr Kaberi Naznin

Members:	
Dylan Jarvis	102093138
Rabya Tayal	103144215
Simon Tran	103602807
Thomas Babicka	103059885
Cody Cronin-Sporys	103610020
Nicholas Dyt	101624265

Trello Days 6-10

Burndown Chart Days 6-10

The burndown charts and the Trello boards show that our team was ahead of schedule the entire sprint. That said, the overall time spent on the project was very close to the estimate. The rapid burndown is a product of the difficulty of the items, with the easiest/lowest time commitment items being done first.

Group Meeting Notes

The group meetings were conducted over discord and involved basically checking in with each member and their given tasks to discuss if they had completed it, needed more time, or needed more help. The image below summarises the content discussed over the last 5 days:

Who	Day 6	Day 7	Day 8	Day 9	Day 10
Nic	Input sanitisation still not working, moved buttons to better use the space on sales interface.	Making confirm button for sales interface, coding in python.	Still working on confirm button.	Confirm button complete, helping replicate code for other group members.	Minor changes to UI, tab buttons, added page for reports to be done in Sprint 2.
Dylan	Lowered refresh rate, still couldn't get it to ONLY refresh upon change, which would be ideal.	Confirm button for member table finished.	Busy on other assignments	Designing improved UI components with Nic, code review to make sure all buttons working.	Helping with cosmetic changes and testing.
Simon	Search field working. Working on modification UI.	Modification UI half working, some of the fields won't populate, need to have a look at the proper syntax.	Modification fields now populate correctly.	Busy with other assignments.	All tasks complete. Testing.
Cody	Added timestamps to tables, will do for others.	Added timestamps to all tables, working on filtering display by timestamp, so outdated orders are not displayed.	Display not quite working, syntax is difficult to work with. Working with Rabya to make it work.	Sales display table working, have to make price display with a dollar sign.	Dollar sign displayed.
Thomas	Still working on confirm button.	Busy with other assignments.	Finished confirm button, interface testing to make sure all the buttons work as intended.	All tasks complete. Testing.	All tasks complete. Testing.
Rabya	Member prepopulated fields working well, tested thoroughly.	Confirm button finished, member UI	Helping Cody work on the timestamp filtering for display views.	Timestamp filtering working. Now to work on,	All tasks complete. Testing.
